

Name:

Traversing a list - warm up	
<p>WARM UP: Answer these questions in your own words – do not Google the answers or look for formal definitions. What do these programming concepts mean to you?</p>	
What are some things you remember about a list in Python?	
<p>Throughout this semester you have learned about three structures in coding: sequential, selection and iteration.</p>	
What is sequential?	
What is selection?	
What is iteration?	

Traversing a list - wrap up	
What does it mean to traverse a list?	
Write an example of traversing a list using a while loop:	
Write an example of traversing a list using a for loop:	
What are some things you want to remember for the future about traversing a list?	

SUCCESS CRITERIA:

- Complete the warm up questions
- Write a for loop to traverse a list
- Write a specialized for loop to traverse a list
- Be able to discuss what lines of code are doing in a loop
- Complete the wrap up questions
