# CodeX Mission Reminders

# Reminders when working on a new mission:

- Always start a new program by creating a new file
- Always use a descriptive name
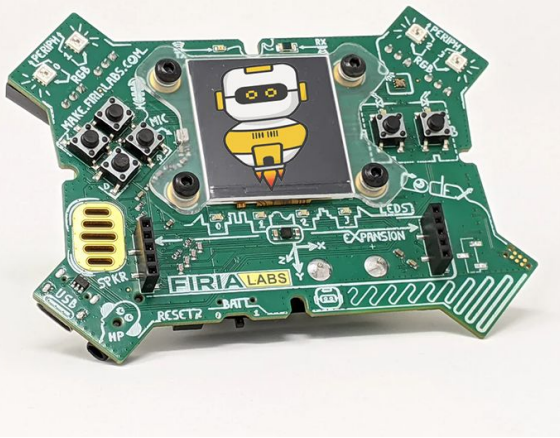

FIRIA LABS

Reminders when working on a new mission:

You are working on a project – not completing a worksheet, so….

- Seek to understand the new concepts and the "why" for coding instructions
- Focus on the project
- Avoid rushing through the material – take your time
- Test your understanding along the way by trying stuff – see what happens

Reminders when working on a new mission:

- Collect all the tools you find! (look for the 🔧 wrench icon)
- Pay attention to new terms – they are used frequently
- Don't just skip over something you understand – get help!
- Read ALL the instructions carefully – don't skip to the code without reading or understanding
