FIRIA LABS — MISSION 10 LOG

Pre-Mission Preparation	
In this mission you will use a computer clock to measure time. What are some things you use a timer for?	
Mission Objective #3	
If you import an entire module (or library), how does the code change when you access a function from the module?	
Mission Objective #4	
List three functions available in the time module:	1. 2. 3.
Post-Mission Reflection	
Computers measure time in all types of applications. Name some applications where a computer will measure time:	
What is something new you learned from completing this mission:
