

# CodeX Mission Reminders

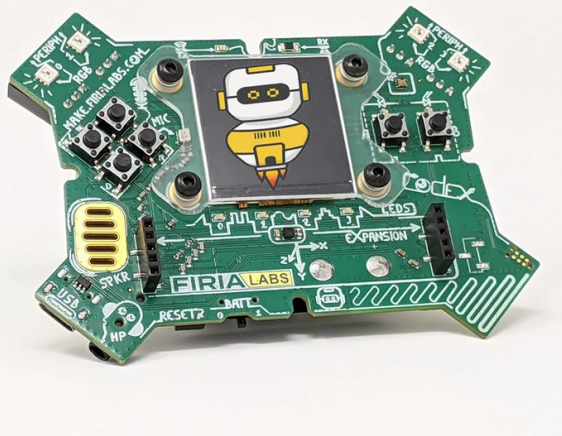

# Reminders when working on a new mission:

- Start each new program with a new file
- Use a descriptive name
  - No spaces in name

# Reminders when working on a new mission:

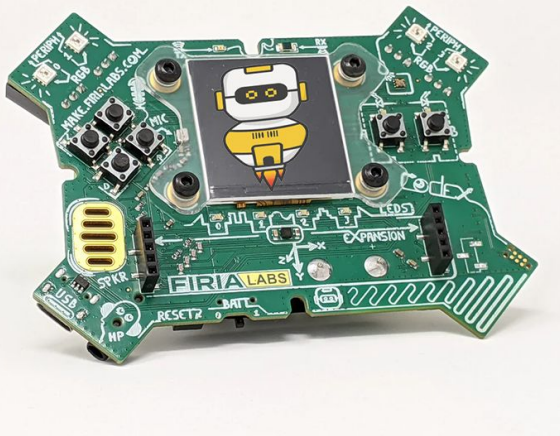

You are working on a project – not a worksheet, so....

- Seek to understand the new concepts and the “why” for coding instructions
- Focus on the project

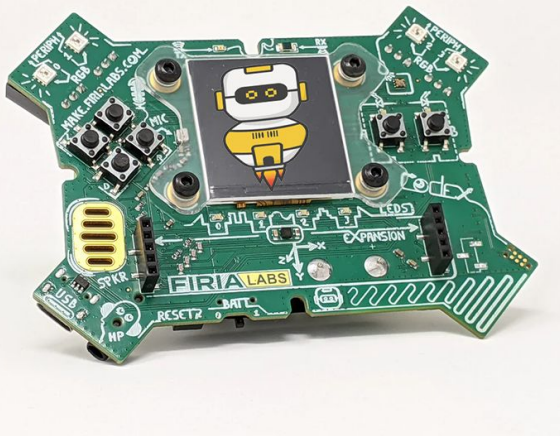

# Reminders when working on a new mission:

- Avoid rushing through the material – take your time
- Test your understanding along the way by trying stuff – see what happens

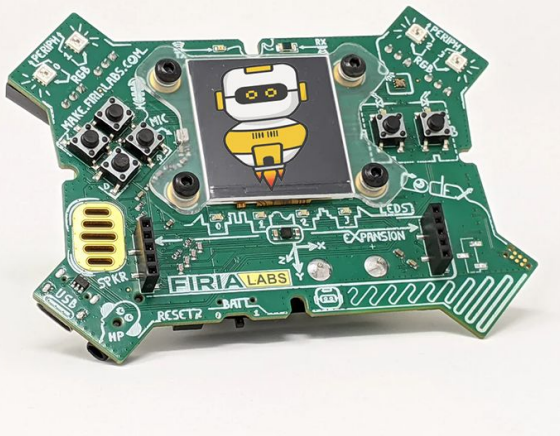

# Reminders when working on a new mission:

- Collect all the tools you find!  
(look for the  wrench icon)
- Pay attention to new terms –  
they are used frequently

# Reminders when working on a new mission:

- Don't just skip over something you don't understand – get help!
- Read ALL the instructions carefully
- Don't skip to the code without reading or understanding
