FIRIA LABS — MISSION 2 LOG

Pre-Mission Preparation	
What are some things you can attach to a computer or laptop?	
Why do you think you should learn how to program a computer?	
Mission Objective #1	
What word did you add to your toolbox?	
List one fact about this concept:	
Mission Objective #3	
What is something you learned about the CPU?	
Mission Objective #9	
List three images that interest you:	1. 2. 3.
Post-Mission Reflection	
The CodeX can do a lot of things, and even connect to the world around it. You can connect it to more sensors, more lights, motors, and more! What projects can you imagine using the CodeX for?
