

### Pre-Mission Preparation

Can you think of any ways a musician uses a computer to create music?

What are some ways you want to use music or sound in a CodeX program?

### Mission Objective #1

What are some sounds you want to try

### Mission Objective #4

Why do you think you need to display the image BEFORE playing the music? If you aren't sure, switch the two lines of code. Then answer the question:

### Mission Objective #5

Definition of "readability"

Definition of "comments"

### Post-Mission Reflection

What are two ways you can hear sound from the CodeX?

- 1.
- 2.

What are two ways to make your code readable to people?

- 1.
- 2.

What are two ways you want to use sound or audio files in a program?

- 1.
- 2.
