FIRIA LABS MISSION 8 REMIX LOG

Pre-Mission Preparation	
What is a programming skill you want to improve during this remix?	

Remix Step 1: Review your code from Mission 8

Mission 8: Answer Bot What does this program do?	
What programming concepts did you learn and use?	

Remix Step 2

Describe what your remix project will do:	

Remix Step 3: Plan your code. What variables will you use in the project?

What variables will you use in the project? Fill in the chart.
You do not need to fill in every line, or you can add more.

Variable Name	What it will be used for:

What list or lists will you use in the project? *add more if needed.*

List name:	List items:
List name:	List items:

What buttons will you use in the project? *You do not need to fill in every line if you won't use all the buttons.*		
	Button	What it will be programmed to do:

Remix Step 4: Write your code

Use the sandbox when you write the code. Write just a few lines at a time and test often.

Remix Step 5: Commenting and feedback

Documentation	- Make sure your code is readable by adding blank lines - Add comments to sections of your code that explain what they do
Peer feedback	Get feedback from two (or more) people. You can be one of the peer reviewers.
Peer Review #1 Name:	
What do you like about the program – be specific!	
Give at least one suggestion. Begin with "what if" or "maybe you could"	
Peer Review #2 Name:	
What do you like about the program – be specific!	
Give at least one suggestion. Begin with "what if" or "maybe you could"	
Review the comments. Then take time to improve or add to your project.	

Post-Mission Reflection	
What did you change in your project after reading the feedback?	
Run at least three remix projects by other students. Which one was your favorite, and why?	
Think back to your answer for the pre-mix question. Did you meet your goal? Explain your answer:
