FIRIA LABS

MISSION 7 REMIX LOG

Pre-Mission Preparation

How would you use a list in math or science?

What could you use a list for in a different subject?

Remix Step 1: Review your code from Mission 7

Mission 7: Personal Billboard What does this program do?

What programming concepts and skills did you learn and use?

Remix Step 2: Describe what your remix project will do:

Remix Step 3: Plan your code. What variables will you use in the project?

You do not need to fill out every line if you don't need that many variables.

Variable Name	What it will be used for

First list name:	
Items in list	
Second list name:	
Items in list	

Button	What it will be programmed to do:

Remix Step 4: Write your code.

Go to the sandbox to write your code. Write just a few lines at a time and test often.

Remix Step 5:

Peer Feedback Form

Name of student completing the form: _____

What do you like about the program -- be specific:

Give at least one suggestion. Begin with "What if..." or "Maybe you could..."

Programmer feedback form

What do you like about the program -- be specific:

(continued on back)

What do you want to improve, change or add?

Post-Mission Reflection

What did you change in your project after reading the feedback?

Run at least three remix projects by other students. Which one was your favorite, and why? _____

What is one error you had in your code, and how did you fix it?
