

Name: _____

FIRIA LABS

MISSION 14 REMIX LOG

Pre-Mission Preparation

Mission 14 introduced for loops. Think back to the previous missions. Are there any programs that use a while loop that you could change to a for loop?

Remix Step 1: Review your code from Mission 14

Mission 14: LineArt What does this program do?

What programming concepts and skills did you learn and use?

Remix Step 2: Describe what your remix project will do:

Remix Step 3: Plan your code. What functions, variables, graphics, sounds and buttons will you use in the project? You do not need to fill out every line.

Variable Name	What it will be used for

For loop or graphic	

Function name	What it will do

Button	What it will be programmed to do:

Remix Step 4: Write your code.

Go to the sandbox to write your code. Write just a few lines at a time and test often.

Remix Step 5: Peer Feedback Form

Name of student completing the form: _____

What do you like about the program -- be specific:

Give at least one suggestion. Begin with "What if..." or "Maybe you could..."

Peer or Programmer feedback form

What do you like about the program -- be specific:

What do you want to improve, change or add?

Post-Mission Reflection

What new concepts from Mission 14 did you use in the remix project?

What is something you will remember about this project?

What ideas do you have for further extensions or remix projects?
