

Mission 4 Assignment	Name:
Pre-Mission Preparation	
During this mission you will use the CodeBot for animation. What is your definition of animation?	
Mission 4 Checks	
Objective #1 What makes the CodeBot rotate?	
Objective #2 What makes the CodeBot move in a circle?	
Objective #3 How do you reposition the scene after each attempt?	
Objective #4 What are two Python commands you can use to create sound?	
Post-Mission Reflection	
Movement, blinking lights and sounds are used in animation and automation real-world applications and objects. What are some objects or places you have seen animation, and what code might be needed to create it?
